And Then Leaves in a Hurry to Have the Book Suppressed-He Burlesqued Ministers and a Hudson River Town Congregation.

NEW YORK, April 5.—A preacher rising to apologize to five hundred of rising to apologize to five hundred of his fellow clergymen, for a book of fiction of which he was the author, and then, amidst plaudits of the gathering, scizing his hat and overcoat, to hurry down town to his publishers to suppress the volume, created a sensation at today's session of the annual New York Methodist Conference.

sensation at today's session of the samual New York Methodist Conference.

Rev. Dr. Benjamin Warren, pastor of Centenary Methodist church, this city, was the preacher. His book, which was published some months ago, was strongly criticized in many churches. Critics of the book have declared that it contains a burlesque on a dozen or more preachers well known in the New York conference. Conditions described in the book are said to be strangely like those existing in a certain Hudson river town. Today when most of the regular conference business had ended, Mr. Warren, after explaining about his book, said:

"It appears that I am guilty of having drawn cortain characters too close to life, and if I have made mad any man or woman inside or outside of this conference I am heartliy sorry for it. I think I can have that book suppressed and the plates destroyed. I am going to bend my utmost end in endeavoring to that end. I have no hope of reward or fear of punitsament but because of the honor and esteem in which I hold this body."

been cured of the measles, she was attacked about a fortnight later by a furious, itching and painful eruption all over her body, especially the upper part of it, for min g watery and bleeding sores, especially under the arms, of considerable size. She suffered a great deal and for three weeks we nursed her every night, using all the remedies we could think of. Nothing would help. We then remembered having heard so much about Cuticura Remedies. We sent for them and after twenty-four hours we noted considerable improvement, and, after using only one complete set of the Cuticura Remedies, in five consecutive days the little one, much to our joy, had been entirely cured, and has been well for a long time. Old Age and Work.
Old people make a great mistake when they give up work. Many men who have made a competency in busi-ness and feel entitled to retire from active work find themselves declining in health and becoming prematurely old for want of occupation. In most aged persons the vital functions con-tinue in active exercise under normal conditions, but if the regularity and moderation of business life are depart-ed from trouble will surely follow.— London Lancet.

the executive order carrying into entect the new immigration law.

Secretary Straus' action was based upon an appeal taken by the Japanese from a decision of the inspector at El Paso, Texas, denying them the right to enter this country on passports from Mexico.

These appeals first reached Commissioner of immigration Sargent and they were referred by him to the Secretary with the recommendation that they be dismissed on the ground that no other course was permissible under the agreement of last winter relative to the exclusion of Japanese laborers. The matter was passed on behalf of would-be immigrants to tar Japanese minister and he advised them that the course of the United States as horities was in accord with the agreement between the two countries and hence satisfactory to has government. When they reported in the had been compelled to comvite the United States in search of food he advised them to apply to the Japanese minister to Mexico for relief.
